

VULCANIZING TAPE 5M BLACK 19MMX0.5MM

Art.no: 16-300497

Strong and elastic self-vulcanizing tape with excellent electrical insulation properties. The tape is applied under tension and quickly vulcanizes (self-bonds) at room temperature into a homogeneous mass. Non-sticky. Especially suitable for waterproofing cables and connectors. Width 19 mm. Length 5 meters. Thickness 0.5 mm. Color black. 1-pack.
