

DC/DC CONVERTER 24/13.8V MAX 7A

Art.no: 22-5208

DC/DC converter 24 volts to 13.8 volts. The converter features an advanced circuit design with high-quality components, providing 90% efficiency housed in a sealed die-cast aluminum enclosure. It has protection against overcurrent, polarity reversal, overvoltage, and short circuit. Natural convection cooling without ventilation holes ensures moisture and dust resistance. It has a wide input voltage range, 18-38V, and provides an output voltage of 13.8V, Max 7A. Automatic reset protection.

Technical information

Brand	Manson
Dimensions (LxHxW)	96 x 75 x 32 mm
Material	Aluminium
Warranty	1 Year
Weight (kg)	0.300000
