

BAR BRACKET HIGH VOLVO PAIR

Art.no: 14-V0702

Warning light bracket designed for Volvo FH, FM, FMX, H1 (low cab), and H2 (Globetrotter). A major advantage of the bracket is that the light bar is positioned far forward on the cab roof, preserving the functionality of the roof hatch. The bracket mounts in the cab's fixpoint attachments, ensuring quick and easy installation. Its wide contact surface, 185 x 85 mm, provides stable mounting. Made of 3 mm stainless steel. Sold in pairs, one right and one left. The bracket is 75 mm high.
