

GLOBE BEACON BULB 12V R65

Art.no: 15-74600

The Globe is a rotating warning light designed to withstand tough conditions. The warning light features a flexible and vibration-damping base, an unbreakable polycarbonate dome, and is waterproof. The Globe is virtually unbreakable and can withstand rough conditions, such as driving in forests and rough terrain where branches may hit the warning lights. It can also withstand exposure to high-pressure water. The Globe is one of our most popular products on the Swedish market.

Technical information

Brand	Sirena
Voltage	12V
ECE Approval	R65klass1TA1
Lens color	Orange
Dimensions (LxHxW)	Höjd: 240 mm
Diameter	152 mm
